

DANGEROUS GOODS INSPECTOR

- ▶ **DURATION** : 03 Days.
- ▶ **LANGUAGE** : English.

- ▶ **TARGET POPULATION**
 - This course is suitable for you if you are responsible for dealing with Dangerous Goods in an operational capacity, or have oversight of such activities;
 - It may also be beneficial for you if you are responsible for implementing ICAO Annex 18 requirements within your state.

- ▶ **INTRODUCTION**

Articles or substances which are capable of posing a risk to health, safety, property or the environment and which are shown in the list of Dangerous Goods in the ICAO Technical Instructions for the Safe Transport of Dangerous Goods by Air (ICAO Doc 9284), or which are classified according to these Instructions.

This course provides newly appointed Dangerous Goods Inspectors with the theoretical knowledge needed to fulfil their regulatory role.

Based on the ICAO Inspectors training programme, this course is designed to provide the foundation of knowledge required prior to embarking on practical and on-the-job training.

- ▶ **COURSE OBJECTIVE**

By the end of this course, participants will be able to demonstrate understanding of:

 - ICAO Annex 18 and key areas of the Technical Instructions and Supplement;
 - The resulting responsibilities of states;
 - What constitutes as Dangerous Goods and the ways in which it should be packed, marked and shipped together with suitable documentation;
 - Who is involved in the transportation of Dangerous Goods and their responsibilities
 - Responsibilities during Dangerous Goods emergencies;
 - Which Dangerous Goods can be shipped, including areas that need to be covered when auditing the appropriate organizations to ensure that procedures and documentation are compliant.

- ▶ **PREREQUISITES**

Prior attendance at a course on the shipping or acceptance of dangerous goods by air is desirable, but not essential.
