

## MANAGING AVIATION TRAINING INTELLIGENCE (MATI)

- ▶ **LANGUAGE:** English.
- ▶ **DURATION:** 05 Days.
  
- ▶ **TARGET POPULATION**

The training is most beneficial for those who are responsible for establishing, managing, or operating an aviation training organization, including current and future training:

  - Directors;
  - Managers;
  - Heads of departments; and
  - Operations managers.
  
- ▶ **COURSE OBJECTIVE**

This course aims to broaden the management approach of Civil Aviation Training Centre managers to practice decision-making based on managing all available aviation training intelligence. Consulting State master plans, organization analyses, evaluating training needs data, and post-training data to build the training centre portfolio and operational plan is critical to improve States' or regions' Universal Safety Oversight Audit Programme (USOAP) audit results and meet aviation growth projections with qualified personnel. Implementing an information and training management system is the key to effective management of aviation training intelligence.

Upon successful completion of this course, participants will:

  - Manage compliance of their training organization with ICAO provisions;
  - Manage the core business mission and vision;
  - Manage Aviation Training Intelligence;
  - Establish strategic, operational and implementation plans;
  - Manage Key Performance Indicators (KPIs) for training operations;
  - Use advanced leadership practices; and
  - Implement an integrated training management system.
